Whole Number 575

Here and There

Maple sugar and maple syrup produced in Canada in the spring of 1931 had an estimated value of \$5,537,700 of which the former accounted for \$350,800 and the latter for \$5,186,900. The Province of Quebec is the largest producer in the Dominion.

Following a long succession of shipments in an experiment commenced a year ago, thirty-five cars of beef cattle, the bulk of them Winnipeg recently by special Canadian Pacific train for the Atlantic seaboard for shipment to Great Britain.

Thousands of salmon recently "took the elevator" on their way to the spawning grounds in the upper sections of the Stnapp River, British Columbia, when they used the fishway built by the Canadian Government Department of Fisheries to overcome the tumbling waters at Stnapp Falls.

With the departure on October 1 of the big Sikoraky amphibian plane for Boston, the Pan-American Airways concluded their service between Boston and Halifax which was inaugurated August 1. In August, 70 passengers were carried on the southbound trip and 67 northbound in 18 flying days.

Manitoba's threshing was practically complete for 1931 in the first week of October, according to the weekly crop statement of the Canadian Pacific Railway department of agriculture. Saskatchewan was then 61 per cent, threshed and Alberta 56 per cent, with northern areas in each province still holding heavy crops ripening for the machines.

His Excellency the Earl of Dunsborough, Governor-General of Canada, together with his eldest son, Viscount Dunsborough, have in view hunting and fishing trips in New Brunswick next year. During his recent visit to the province, His Excellency was presented with a complimentary hunting and fishing license by Hon. C. D. Richards, Premier of New Brunswick.

Completion of organization work of the Dominion Agricultural Credit Company was announced recently by E. W. Beatty, chairman and president of the Canadian Pacific Railway, who stated that "subscription to over sixty per cent of the capital stock of the company have been received and the requisite steps to complete the organization have been taken." Head office of the company will be in Regina.

The new dental car, built by the Canadian Pacific Railway and equipped by the Rosedale, Toronto, Chapter of the I. O. D. E., was turned over for use in Northern Ontario to the Ontario Government recently. This car, claimed to be unique on the continent, will have running rights over all railway lines in Northern Ontario and is equipped with fully modern dental facilities including room, living accommodation, laboratory, consulting room, clinic and dental chair.

The number of Canadians who are part owners of the Canadian Pacific continues to increase. A year ago, on September 2, the total number of the company's Canadian stockholders was 26,155. On September 1 of this year the number had grown to 35,217, an increase of 9,062 shareholders. Many of these have been added since the recent break in the security markets carried stock prices to new low levels indicating that Canadians have confidence in the country's ability to "come back" to prosperity. (730)

Stony Plain and District

Mr. Jac Miller Jr., Wembley, is visiting with friends in Stony.

The Ladies Aid in connection with the United church will meet next Wed. afternoon Nov. 4.

All indications point to a record attendance at the Glee Club's Hallowe'en dance tomorrow, Friday night, in the Moose Hall.

Harvest Thanksgiving services will be held at the St. John Lutheran church, Golden Spike on Sunday next, Nov. 1. Rev. P. Hanneman, pastor.

The election of delegates to the U.F. Stony Plain Constituency convention at Magnolia on Thursday next will be one of the matters to come before the monthly meeting of Stony Plain U. F. Local on Saturday next Oct. 31, in U. F. A Hall, over the Postoffice. President R. C. Pröpp will take the chair.

Hallowe'en favors and decorations of every description and in splendid assortment, at Stony Plain Pharmacy.

Junior Hockey Team.

While we have the balmy days of a perfect Indian summer lingering with us, it is difficult to realise that grim winter is just around the corner. Thoughts of the winter sports seem to be far from the mind of the average person, but to the young amateur hockey player the coming of autumn marks the beginning of preparations for the real winter sport. With this idea in mind, the members and friends of the local Junior Hockey club met the other evening and elected its officers and laid plans for the coming season at the local rink. Some of the plans formulated will be held in abeyance until the meeting of the members of the senior team.

To Participate in Benefits.

Many farmers who are not at present members of U.F.A. will doubtless be wondering how they can take advantage of the opportunities for saving now made possible by co-operative purchasing. They may do so by joining the nearest U.F. Local.

The Constitution of United Farmers of Alberta also provide that 5 resident farmers may form a Local. So if there is no U.F. Local in your vicinity, and you wish to co-operate with your neighbors to buy coal, gasoline, lubricating oil, tractor fuel, tires, etc., get together and form a Local. It is not necessary to wait until some overworked official to come out to organize your district. Payment of the Association's dues can be made out of the dividends accruing from co-operative buying. One of the benefits of belonging to the Co-op. is receiving every two weeks of that independent farm paper, The U. F. A.

Set Your Own Standard

Most of us have seen the cartoons and read the stories appearing under the title "Keeping up with the Joneses." We have laughed over them, but at the same time exclaimed aloud, or murmured to ourselves, "What fools!" Calmly facing, and closely diagnosing the situation which confronts thousands of us today as individuals, and all of us collectively as represented by our municipal, provincial and federal governments, must we not admit that no small part of our present financial problems are the result of conditions created by an attitude analogous to that portrayed in "Keeping up with the Joneses?"

The acuteness of our present day situation may be due to other causes quite beyond our control—such as protracted drought, and consequent crop failure, leading to unemployment in urban centres—but would we not as a people, individually and collectively, have been able to withstand these shocks if, when times were prosperous and business active, we had not lived up to, and in many cases far beyond, our current income in a desperate race in which each and all were striving to keep up with somebody else?

Looking back—and it is in times like these that people are in the mood to "look back"—take stock, and give heed to things that at other times when everything is forging full speed ahead they will not stop and consider, it is not possible to see that we indulged in expenditures which our actual position did not warrant but into which we plunged because of a false vanity that we must keep up with somebody else?

The old motor car although still serviceable was not good enough because somebody else had bought a new, more up-to-date, faster car; the simple, refreshing, health-giving holiday at a near-by lake we had enjoyed for years had to give place to an expensive trip to the Coast, or a winter in California, or Florida, or some Eastern city because somebody else had followed such a course; or because somebody else sent their son or daughter to university, we must do likewise, even though our boy and girl might not have similar tastes or inclinations or aptitude for the higher degrees of learning.

And these traits of character in the individual naturally have found expression in the policies of the governments we have created. Because older established, more populous and wealthier provinces, states and countries have, through the expenditure of millions of dollars, created great systems of permanent, all-weather roads, why must we do the same although still young, weak and not yet wealthy as a community. Not only roads, but our schools, our public buildings, all our public services had to be the equal of those to be found anywhere else. As individuals, as electors, we demanded these things, and our governments were forced to comply with our demands or give way for those who would. We were determined to keep up with the Joneses of the whole world.

As a result the factories of the world were busy turning out not necessities alone but enormous quantities of luxuries at a fabulous cost. Stocks and bonds of these inflated industries mounted in value to dizzy heights. Everybody bought them with a view to amassing more money in the future. They might buy still more luxury. Sooner or later a collapse had to come, and the Joneses of the world and their vast army of imitators are now in difficulty.

There is a lesson all may well take to heart at this time. It is this: Rightly or wrongly—and wrongly we believe, and certainly wrong in the vast differences which do exist—wealth is unevenly divided, income and earning power vary greatly from one person to another, and at different periods of a person's life. One man's standard of living and expenditure cannot safely be accepted as sound and proper by another man. While our present distribution of wealth continues, one man's loss of income will be another man's extravagant folly.

Like everything else in this changing world, the social order is changing. Furthermore, it is the right and privilege of every man and woman to work for a change along lines he or she considers will be better, more just; with this limitation, however, that they must consider and respect the rights of others just as they expect their rights to be respected. Self-interest alone must not be our guide, because, in the final analysis, insistence of self-interest alone means self-destruction. And this is true of nations just as truly as it is of individuals.

George Washington once said: "Economy makes happy homes, and sound nations—in little it deep." Far better to follow this sage advice than to indulge in the heart-burning dissatisfaction of continually trying to keep up with the Joneses.

Proud Of Record

In the province of Vermont, Sweden, 164 farmers have received diplomas testifying to the long hereditary tenure of their lands. The record seems to be held by a family at Eds, which has farmed its lands since 1470, but another family, at Norda Enten, has held a farm since 1480. The Swedish farmers take great pride in their family records and the new diplomas are highly prized.

"When your wife starts to talk does she know when to stop?"
"I don't know yet; we've only been married nine years."

Could Not Check the Summer Complaint

A Few Doses Did It

Mrs. R. Coulter, 918-11th Ave. E., Calgary, Alberta, writes: "Last summer my youngest son was very bad with summer complaint, and everything he ate he would vomit, and he got so thin I became very much worried. I could not get the discharges checked, so I went to the drugstore and he gave me a bottle of Dr. Fowler's Extract of Wild Strawberry. It told me it would stop the trouble if anything would. After I had given the boy the first few doses I noticed the discharges were being checked, and he was not long before he was well again."

Hard Times In Labrador

Twelve Thousand Families Are Reported To Be Facing Starvation Unless prompt assistance is forthcoming some 12,000 families face starvation this winter in the Button Bay district of Labrador, according to a report presented the Quebec Government by Rev. A. S. Leclercq, provincial school inspector and Anglican missionary of the stricken district. This condition was brought about by the failure of the cod fishing industry this year.

The report was considered by a cabinet meeting, at the conclusion of which Premier L. A. Taschereau said the Quebec Government will do something as soon as possible to alleviate the situation.

"We would naturally like the Dominion authorities to go 50-50 with us in providing this relief," he added.

DRAPERIES MADE NEW

"When we resumed housekeeping a month ago I found my draperies had become creased from packing. I hung them on, and on the next day I removed the creases. Then I forgot them. The result was they became badly dyed then a deeper green, and as I used Diamond Dyes they look gorgeous and new, I have never seen easier dye to use. I used Diamond Dyes. They give the most beautiful colors—when used either for tinting or dyeing—than ever take the life out of cloth as other dyes do."

Mrs. J.F.T., Montreal.

A New Product

Making Of Wool Leather Is Closely Guarded Secret

The newest leather has been made at all. It is nothing more or less than wool. Wool-leather has been developed at the headquarters of the British Wool Industries Research Association in Leeds, England, and the process is a closely guarded secret. It looks like leather, wears like leather, is waterproof, and can be produced remarkably cheaply. The new wool-leather is excellent for boot uppers, furniture, motorcar coats, and for the upholstery of cars, buses, and railway vehicles. Not the least of its advantages is that it is easily produced in any desired shade or colour.

Persian Balm imparts a rare charm and distinction to the woman who uses it. Fragrant as a flower, delectably cool as a breeze, it always results in complexions delightfully young and lovely. Indispensable to every dainty woman, it is a powerful base for oily-textured skins or as a beautifying lotion, it is unrivalled. Recommended also to soften and make the hands flawlessly white.

Telegraphing Flowers

Television May Enable Purchaser To Actually See the Flowers Selected

The sending of "flowers by telegraph" has for some years been a great convenience to many people, although they have been obliged largely to leave the selection of the bouquet or plant to the florist. But, according to information given out at the recent convention of the Florists Telegraph Delivery Association, television will soon enable the customer actually to see his selection of blooms and supervise their arrangements before delivery is made. Perhaps the time may come when a customer can get a whiff of their fragrance?—Christian Science Monitor.

New Appointment

Dr. C. N. Bell, Of Grain Standards Board, Has Been Supernumerary
Dr. C. N. Bell, first secretary of the Winnipeg Grain Exchange, and recently the secretary of the Western Grain Standards Board and the Grain Appeals Board, having reached the age limit for civil servants, has been supernumerary and is succeeded in his position by Major C. J. Drake, who has been transferred from the Canadian Government Elevators at Fort William.

Major Drake is well known in Winnipeg, having held a secretarial position in the Manitoba legislature for a number of years.

Blooming varieties of begonias like plenty of sunshine, whereas varieties with spotted leaves thrive in north windows.

World's Poultry Congress

Preparations Being Made To Entertain Delegates To Rome Convention

Delegates to the Fifth World's Poultry Congress being held in Rome, Italy, in 1933, are assured an exceptional opportunity for visiting. Not only will they "see Rome" during Congress week but they will be guests of the Government of Italy for an eight-day tour of the country, during which visits will be made to such interesting and historic spots as Lefebvre, Florence, Pisa, Perugia, Ancona, Bologna, Ravenna, Milan, Como, and Venice. Canadian delegates will return by way of Switzerland, Germany, Belgium and France on route to Great Britain. Going routes being considered include via Paris and the South of France, via Gibraltar and Old Spain, via the Riviera, and by steamer direct to Naples with a day at Palermo. F. C. Elford, Dominion Poultry Husbandman, is again giving an active lead to Canadian participation and will be glad to hear from anyone interested in attending the Rome Congress.

Ready-Made, Medicine. — You need no physician for ordinary ills when you have at hand a bottle of Dr. Thomas' Electric Oil. For coughs, colds, sore throat, bronchial troubles, it is invaluable. For neuralgia, rheumatism, sprains it is unsurpassed; while for cuts, sores and the like it is an unquestionable healer. It needs no testimonial other than the use, and that will satisfy anyone as to its effectiveness.

Make Drastic Cuts

United States Naval Expenditures To Be Reduced

With strokes cutting more than \$50,000,000 from its 1933 expenditures, the United States navy has eliminated its least important activities and has sharply curtailed many that it valued highly.

More than 3,000 civilian employees will be laid off. More than 4,000 sailors and marines will be taken from the rolls.

The Boston, Mass., and Charleston, S.C., navy yards will be closed, and so will the operating base at New Orleans, La., the naval station at Newport, Rhode Island, and the naval ammunition depot at Lake Denmark, New Jersey.

Achieved Great Success

Lord Byng Restored Public Confidence In Scotland Yard

Canadian will read with warm satisfaction the tribute paid to Lord Byng by the London Times on his relinquishing the office of Commissioner of the Metropolitan Police Force. The great popularity which his lordship gained with the soldiers under his command on the battlefields of Europe was shared by the citizens of this country when he became Governor-General of the Dominion. He was liked for his personal qualities as much as he was admired for his ability and strength of character. When he was appointed to Scotland Yard there were some who wondered whether military qualifications were the right credentials for a police chief. Unfortunately Lord Byng has suffered much from ill-health during his tenure of office, but he has succeeded in achieving a great success in the position. Certain happenings had marred the wonderful record of Britain's Metropolitan Police Department, and it was to no purpose that the great commander was called. He undertook the task with his usual thoroughness, however, with the result, according to the Times, that "Scotland Yard has gained nothing less than complete restoration of public confidence in the police force and the police force has regained confidence in itself. The good which Lord Byng has done will live after him." May he be spared to long enjoy his well-earned retirement! He has shown himself in peace and war a true commander and a great administrator.—Quebec Chronicle-Telegraph.

Don't be without Douglas' Egyptian Liniment. Keep it always handy. Relieves toothache, neuralgia, sore throat, quinsy, and croup. Invaluable for burns, sores, Barber's Itch and Ringworm.

Canada a Good Country

Times may be "hard" in Canada in some lines, but generally speaking, this country can hold its head up with any of them when it comes to business integrity and solidity. Naturally, we cannot hope to be rid of those who are always tripping over their own feet, but these, fortunately, are in the minority. But how that minority can sometimes broadcast.

"FATIGUE?"

I just postpone it!"

"No, I don't have 'nerves.' You can't have them, and hold this sort of position. My head used to throb around three o'clock, and certain days, of course, were worse than others."

"Then I learned to rely on Aspirin."

The sure cure for any headache is rest. But sometimes we must "postpone it." That's when Aspirin saves the day. Two tablets, and the nagging pain is gone until you are home. And once you are comfortable the pain seldom returns!

Keep Aspirin handy. Don't put it away, or put off taking it. Fighting a headache to finish the day may be heroic, but it is also a little foolish. So is sacrificing a night's sleep because you've got a sunning cold, or irritated throat, or grumbling tooth, or neuralgia, or neuritis. These tablets always relieve. They don't depress the heart, and may be taken freely. That is medical opinion. It is a fact established by the last twenty years of medical progress.

The only caution to be observed is when you are buying Aspirin. Don't take a substitute because it will not act the same. Aspirin is made in Canada.

Made in Canada

Value To Canadian Agriculture Of The Chemical Work Carried On By Our Experimental Farms

For a period of more than forty years the division of chemistry of the Dominion Experimental Farm system has been in close contact with the Canadian farmer. This has been brought about by the issue of reports and bulletins, by lectures and addresses, personal interviews and to a still greater degree by a voluminous and ever-increasing correspondence.

The information so disseminated is largely the result of investigation and research which are based upon the application of the science of chemistry to practical agriculture, and these constitute the main work of the division.

A large number of soil samples are received for examination from farmers scattered throughout the Dominion. In the report of analysis to the sender, advice is given with respect to manures, soil amendments and suitable fertilizers, etc. In this way alone hundreds of farmers every year are directly benefiting from this service of the division. From the results of carefully planned investigations the influence of continuous grain-growing has been determined and economic methods of maintaining the fertility of western prairie soils have been indicated. The extensive use of alfalfa and clover in present-day crop rotations is largely due to the early work of the division in which the material value of these legumes was demonstrated.

Recent years have witnessed an increasing use of fertilizers, especially in eastern Canada. Extremely valuable information with respect to the economic employment of fertilizers and liming materials has resulted from the investigation work carried on by the division on the several branch farms and stations.

Another important phase of the work has been the establishing of standards for the more important feeding stuffs. Some years ago there was widespread dissatisfaction over the variable quality of milling by-products. Many were loaded with screenings with consequent poorer feeding value; injurious weed seeds were frequently present, and middlings with a low fibre content, so necessary in pig-feeding, were difficult to obtain. Standards for bran, shorts, middlings and feed flour were set, regulations regarding adulterations by screenings passed and as a result there is on the market today standardized clean, high-grade, wheat by-products. Similar work was done for packing house by-products, resulting in the vending of properly labelled material with guaranteed contents of protein, fat and bone-phosphate.

In the chemistry of wheat it has been shown that seasonal conditions — precipitation, temperature, etc. — have a greater influence on the quantity and quality of the gluten than does soil fertility. The valuation of newly introduced varieties has been another phase of the work. For instance, some years ago an effort was made by interested parties to distribute in the West a variety of wheat to replace Marquis and other standard varieties. Yields, appearance and even percentage of protein of this variety were satisfactory. Gluten determinations, however, showed this wheat to possess a soft, sticky, non-resilient gluten, markedly inferior to that of such older varieties as Fife and Marquis. In consequence the

distribution of this variety was discontinued.

Grain mixtures grown to produce high protein yields have been under investigation. As a result certain mixtures have been found which almost double the amount of protein per unit area formerly obtained.

The critical examination of a recently introduced scheme of pasturage calls for special comment. This system involving close grazing accompanied by judicious fertilizer treatment, has produced a herbage rich in protein during the entire growing season and has resulted, in some districts, in saving the purchase price of commercial feeds, during the summer.

Free analysis of well water has contributed towards the maintenance of hygienic conditions through the farming districts. Thousands of samples of well water have been analyzed, pollution, alkalinity, etc., detected and remedies suggested.

At one time the export trade in pork to Great Britain was seriously affected by extreme softness of the product. Investigation of this problem proved that the chief factors leading to softness in pork were the stage of maturity of the animals and the character of the feed—skim-milk in the ration possessing a correcting influence in the prevention of this undesirable quality.

The foregoing paragraphs present but a small proportion of the work of the division. These examples, however, may serve to emphasize the value to Canadian agriculture of the chemical work of the Dominion Experimental Farm.

Tarnish on tin cooking vessels makes them more efficient by holding rather than reflecting heat.

The citrus growers of California have a \$25,000 insect laboratory.

Excellent Wheat Quality

This Year's Western Wheat Crop Of High Protein Content

Additional tests of the milling and baking qualities of the 1931 crop have confirmed early conclusions that this year's crop is equal, if not superior, to that of any year examined. The tests were conducted by Dr. F. J. Birchard, chemist in charge of the research laboratory of the Board of Grain Commissioners.

The weights per bushel of the first four grades are all higher than last year. The average weight for No. 1 hard is 65½ pounds; for No. 1 northern, 65; No. 2 northern, 64½; No. 3 northern, 62½. With the increase in weight there is a corresponding increase in the percentage of flour in each grade. The average protein content is placed at 14.3 per cent. for the first four grades in Dr. Birchard's report.

"The baking quality of the first four grades is fully equal, if not superior to last year," says the report. "This is indicated by the very large volume and excellent texture of the loaves both when baked by themselves and when blended with typical soft wheats."

Attention is called to the relatively small percentage of wheat grading three northern or lower. Of the wheat passing through Winnipeg, 38.8 per cent. graded one northern, 34.1 per cent. two northern, 21.6 per cent. one hard, and only 4.5 per cent. three northern, and one percent. in other grades.

While the samples tested include wheat from the three prairie provinces, comparatively little from the northern sections of Saskatchewan and Alberta has been inspected. Heavy rains recently in those areas may affect the wheat.

Many Divorce Applications

Divorce applications to the number of some 242 have been filed at Osgoode Hall, Toronto, so far this year it was learned. Of this number 188 were applied for by wives and 109 by husbands. September was the high month for applications, 40 being recorded in that month.

Industry Must Take Leading Part In The Battle Against Depression, Says Dr. Manion

Calling upon industrial and business leaders to walk with men and women in every walk of life to pool their intellects in evolving a permanent cure for economic depression, Hon. R. J. Manion, Minister of Railways and Canals addressed at Windsor, the convention of the Boards of Trade and Chambers of Commerce of Ontario. Civilization was being challenged; it was on trial and "it is the duty of all good Canadians to give serious thought to the whole matter to avoid our civilization going the way of civilizations in the past."

Communism was not the cure, Dr. Manion hastened to add. Unemployment, hunger and hardship formed fertile ground for the seeds of Bolshevism. "Our whole system of production and distribution is out of gear. That is why paid agents of Moscow are in our midst today, feeding upon discontent like evil birds of prey. These agents must be suppressed for, while our civilization has its faults, we can gradually correct those conditions without crippling or destroying our whole political and economic structure."

Notwithstanding, its nature, any plan or policy to combat economic conditions must be contributory, continued Dr. Manion. The employee, the employer and the state must contribute. Without elaborating on it, the federal minister said one per cent. of all the wages and salaries paid annually in Canada, would amount to \$25,000,000. "What good Canadian," he added, "would object to contributing one dollar of every hundred dollars he earns to protect himself and his fellow Canadian from the tragedy of unemployment? In some such manner, modified according to circumstances, an immense fund could be built up in the full years to protect us in the lean years."

Industry must take a leading part in the battle against depression, con-

tinued Dr. Manion. The Dominion, provincial, and municipal governments were able to do only so much—after that point other agencies must enter the lists. For one thing, industry must change its tempo of production. "With industry the system in the past has been to go full blast ahead in prosperous years or seasons, utilizing to the full its large factories, marvelous machines and the human element, but when depression arrives, the industries slow down and the workers have to be cared for by the state until the next period of prosperity arrives." The Dominion this year was spending about \$50,000,000 in caring for the unemployed and this could not continue indefinitely.

"If our political and economic system is to endure," said Dr. Manion, "the ablest minds in industry, commerce and public life must try to evolve the alternating peaks of prosperity and depths of depression, and industry must give its assistance to the fullest. We must, in other words, stop inventing industrial machines which take employment from the hands of the workers and try to develop instead a social machine which will keep our people reasonably employed and so give us a contented and happy people. This is the best antidote to the poison of communism."

Dr. Manion closed his speech on a note of optimism. This country possessed immense natural resources, its banking system was strong and sound, the people were law-abiding, excellent ocean ports dotted the shorelines, unbounded commercial opportunities existed, particularly in the Orient and along the lines of preferential Empire trade. While this was not the time to "rock the boat" by capricious political criticism, likewise it was not the time to pay undue heed to "economic pessimism." There could be no doubt about Canada's future. "Its greatness is still to come."

Lamb: From E.P. Ranch Show Top Grade Form

Royal Ranch Has Done Much To Raise Standard Of Sheep Raising In Alberta

The Department of Agriculture at Ottawa has just received the formal report on the grading of 22 ram lambs under the Federal Ram Grading Policy. Of the lot 21 graded XXX or top grade. S. G. Freeborn, District Live Stock Promoter, who did the grading, states the lot were the best the E.P. Ranch has ever brought out. H.R.H. the Prince of Wales has been giving special attention for a number of years to the improvement of his ranch flock, importing high grade sires from British stocks, and going farther afield to get rams with a view to improving fleece as well as body type. Sales of graded ram lambs and other rams from the flock have done much to raise the standard for the breed in Alberta, and also to increase the popularity and worth of sheep raising as an industry, particularly in the West.

Has Ostrich Taste

When a three-year-old steer was slaughtered at Smithfield, London, England, recently, among the articles found in its stomach were seven pounds of rusty nails and screws, a silver brooch, part of a rubber Wellington boot, part of a bowler hat, a shoe buckle and several pieces of copper wire.

"What! You want leave for your silver wedding? I will not grant it, or you will want leave every twenty-five years." — Fliegende Blätter, Munich.

LEADERS OF CANADIAN BAR IN SESSION

From east and west Canada's leading barristers met at the 14th annual meeting of the Canadian Bar Association held during September at the Manoir Richelieu, Murray Bay, Quebec. Officially opened by His Excellency the Governor-General, the sessions were also attended by distinguished leaders of the bar from England, France and the United States. Photographs show: top, view of the Manoir Terrace, during an informal gathering between business sessions; inset, Louis S. St. Laurent, K.C., Quebec, re-elected president of the Association, and E. H. Coleman, K.C., Winnipeg, re-elected secretary; bottom, group of participating members and speakers photographed in front of the Manoir; left to right, Lord Dunsannon, one of the Governor-General, Hon. Alfred Durnan, M.C., M.P., Minister of Marine, Hon. Maurice Dupre, K.C., M.P., Solicitor-General; Louis S. St. Laurent, K.C., L.L.D., Maitre Fernan Payen, Baronet of Paris, France; His Excellency the Governor-General, Sir Alexander Lawrence, Bart., Charles A. Eaton, president of the American Bar Association, Sir Lynden Macnaghty, K.B.E., K.C., London, England, Hon. N. W. Rowell, P.C., K.C., L.L.D., Toronto, and Mr. Justice Gauthier, Halifax. — Photographs by Can. Steamship Lines.

"I never knew my father and mother."
"Does that worry you?"
"Yes. Magistrates will never believe that I have inherited my misfortunes." — Der Brummer, Berlin.

LOST 20 LBS. FAT

Without Altering Diet

To reduce weight without any attention to diet is rather more than anyone should expect. That the Kruschen method should have succeeded in this case, is a great tribute to its effectiveness.

"When I started taking Kruschen for reducing weight, I weighed 170 lbs. That was seven months ago. I decided I was too heavy, and now, thanks to the half teaspoonful of Kruschen every morning, I tip the scale at 150 lbs. I have been that weight for nearly four months. I may say I feel much better. I did not diet myself in any way whatever."—E. C. Kruschen.

Kruschen Salts do not reduce you overnight—like so many products claim to do. But taken regularly over a period of time—with a modified diet and gentle exercise, half a teaspoonful in a glass of hot water every morning before breakfast will take away unhealthy flesh and restore your figure to its normal weight. Yet at the same time—build up health with a great increase in vigor and energy for you!

WORLD HAPPENINGS BRIEFLY TOLD

Calgary's nine-month revenue report shows collections \$140,000 above the same period last year.

More than \$8,000,000 is to be spent on harbor development at Canton, China.

About 242 divorce applications have been filed at Osgoode Hall, of which 138 were filed by wives.

An increase in the value of meat and meat products exported from Canada for September is shown by the Dominion Bureau of Statistics.

Some 400 persons have been given employment in New York selling telephone service and extensions on commission.

Not a drop of rain has fallen in the Lorca district, near Murcia, Spain, for over seven years, and the peasants are imploring the Government's help.

Estimates that the Australian wheat crop will be 20 per cent. smaller than last year have been received at the agriculture department, Washington.

Increased activity is reported in many Lancashire and Yorkshire cotton mills as a result of an influx of orders since the gold standard was suspended.

The New York American, quoting "an informed source," says the late Senator Dwight W. Morrow, of New Jersey, left an estate of "close to \$20,000,000."

According to the official census taken in June, Ottawa has a population of 124,988, or an increase of 15.90 per cent. in ten years. The 1921 census gave Ottawa a population of 107,843.

A special cable from London to the New York Times announces the death in Bournemouth, England, of General Sir Reginald Hart, 83. Sir Reginald was the oldest holder of the Victoria Cross, which was awarded him in the Afghan war of 1879.

Separate Grade For Garnet Wheat Asked

May Be Excluded From Contract Grades Of Northern Classes

Garnet wheat will be excluded from the contract grades of the northern classes after July 31, 1932, if a resolution passed unanimously by the Western Grain Standards Board is approved and the Canadian Grain Act duly amended at the next session of parliament.

The resolution urged that it be graded as a separate variety of wheat in grades to be known as number one, two and three Garnet, with anything which fails to meet the requirements of these grades being included in the lower grades of the red spring wheat.

Acid Stomach

Completely Relieved by Famous Vegetable Pills

Mr. Frank C. of Blackburn, writes: "I have suffered long from acid stomach and constipation, but since being advised to try your famous 'Little Liver Pills' I can eat anything. Dr. Carter's Little Liver Pills are no ordinary laxative. They are ALL-VEGETABLE and have a definite, valuable tonic action upon the liver. They end Constipation, Indigestion, Bloating, Headaches, Poor Complexion. All druggists. 25c & 75c red packs."

Worry and Fear

Factors That Help To Shorten the Span Of Life

The way that hate, fear, worry and jealousy have helped to choke off at 58 years man's hitherto rapidly increasing span of life, was described to the American College of Surgeons in New York.

The bank president worryingly over business, the criminal suddenly stricken with fear and the mother watching her sick child all were pictured as doing the same injury to their health.

This increase to 58 as the average time every adult may expect to live was discussed by two internationally known physicians, Dr. George W. Crile of the Cleveland Clinic, and Dr. Charles H. Mayo, of the Mayo Clinic of Rochester, Minn.

Dr. Crile told the medical story of ravages of emotions of modern civilization. Dr. Mayo sketched remedies for ill health, which included newspapers as "the greatest educating, thought-moulding enterprise in the world."

By Annette

CROSS-OVER LINES TEND TO MAKE THE FIGURE APPEAR SLIM

You'll love this silk crepe shantung in powder blue and white. It's so extremely serviceable. Its moulded lines with wrapped arrangement through the bodice makes it especially desirable for the woman inclined to overweight. The surplice shawl collar of plain white crepe does its bit toward minimizing breadth.

It's simplicity itself to copy it! The bodice cuts in one unit it joins the skirt.

It's a splendid opportunity! Choose now! You'll be delighted with this smart model.

Style No. 931 may be had in sizes 16, 18, 20 years, 36, 38, 40, 42, 44 and 46 inches bust. Size 36 requires 3 1/2 yards of 36-inch material with 1/2 yard of 36-inch contrasting.

Charting for this model for town or resort are the pastel flat crepe silks, Chinese silk damask, linen and shirting fabrics.

Pattern price 25 cents in stamps or coin (col preferred). Wrap coin carefully.

SUNDAY SCHOOL LESSON

NOVEMBER 1

WORLD'S TEMPERANCE SUNDAY

Golden Text: "Be not drunken with wine, wherein is shame; but be filled with the Spirit."—Ephesians 5:18. Lesson: Galatians 1:13-26; Romans 13:1-14. Devotional Reading: Romans 14:13-21.

Explanations and Comments

"Brothers," wrote Paul to the Galatians, "you are free from the Law, but Christian liberty does not mean that you can do as you please."

"A Christian man is the most free lord of all, and subject to none; a Christian man is the most dutiful servant of all, and subject to all."—Martin Luther.

Liberty and license are not synonymous. Do not use your freedom as a license for indulging your lower impulses, but live in accordance with the law of love. "Fulfill that element of man's nature which is opposed to goodness and makes for evil. It signifies the entire policy of sin. Through loving services for others," continued Paul, "you fulfil the whole divine law, which is, Thou shalt love thy neighbour as thyself." Paul here quotes Leviticus 19:18.

Remembering that the Galatians were prone to quarrel, Paul adds, "But if ye bite and devour one another—set toward one another like dogs or wild beasts—beware lest you destroy one another." "Mutual backbiting and hatred lead only to the destruction of one another's spiritual life."

The Power of the Spirit, verses 16-18.—Walk by the Spirit, submit to the guidance of the Holy Spirit in all your acts, and then you will not fulfil the desire of your evil nature. For the evil nature and the indwelling Holy Spirit are antagonistic. "Throughout this passage the 'Spirit' is evidently the Divine Spirit, for the human spirit is itself and unaided does not stand in direct antagonism to the flesh."—Lightfoot.

If you are led by the Spirit," Paul continues, "you are not under the law, for you will not disobey it." "Law exists for the purpose of restraint, but in the works of the Spirit there is nothing to restrain."—Lightfoot.

The Works of the Flesh, verses 19-21.—The works of the flesh are manifest—plainly seen—Paul declares, and then he gives a repelling list of some fifteen vices which were common among the Galatians. "It may be pointed to as a proof of depravity that vocabularies have more words descriptive of forms of sin than words descriptive of forms of holiness. Under the fruit of the Spirit Paul gives a list of nine, but under the works of the flesh his list extends to twelve, properly sixteen, and the word translated 'which' implies that he did not profess to give an exhaustive list—he could easily have added other instances."—F. Finlayson.

The Fruit of the Spirit, verses 22-24.—"When the beneficial effects of the self-life is corrected, the fruits of the Spirit appear naturally and easily. Note the distinction between work, in which there is effort, and fruit, which swells so imperceptibly and silently on the branch, pressed out from within."—F. May.

He who is governed by the inner spirit is not content merely to refrain from breaking the law; he exercises positive virtues such as Paul now enumerates: love, joy, peace, long-suffering, kindness, goodness, faithfulness, meekness, self-control. Each of these is the result of the first which is love. Against such there is no law. "Paul is content to remark not without a touch of irony in his tone—that these things do not seem to call for the interference of legislation."—A. W. Robinson.

The Final Counsel, verses 25, 26.—"If we live by the Spirit, by the Spirit let us also walk." Walking by the Spirit is the effect of living by the Spirit. If the Divine Spirit has control of our spirit, then we are living joyfully, doing daily what we believe Christ would have us do.

The most vicious and despicable of human vices is insisting upon minding other people's business.

Dean Inge says true fasting is eating something you don't like. Many children feel that way about spinach.

Increased Postal Revenues

Substantial Discovery Is Noted By Postmaster General

Substantial recovery in postal revenues, with every prospect of last year's deficit being overtaken, is indicated in reports of postal business presented to Hon. Arthur Sauve, postmaster-general. Since assuming that portfolio, Mr. Sauve has applied himself industriously to the task of converting a heavy deficit into a surplus and recently expressed satisfaction with the result, which promises well for the future.

One feature of the increased postal business is the marked advance in third-class mail matter. "If this conveys anything at all," declared one official, "it suggests that business houses and industrial concerns have greatly widened their advertising campaigns. Third-class mail embraces printed matter—circulars and such like. The doubling of this business in September indicates a pronounced confidence on the part of merchandising houses in the gradual betterment of conditions generally."

Lending support to this is the 15 per cent. increase in registered mail during September. Second-class mail matter has retained its position, while a slight drop in letter mail is more than offset by increases in other divisions.

For the first three months of the fiscal year the department was \$900,000 in the red" from last year, but the months of July and August overtook \$800,000 of that, and from now on officials look for a steady upswing.

Young Jap Is Independent

Eleven-Year-Old Boy On Long Trip Shows His Mettle

Pride runs high in the Japanese and it gets its start at an early age. Young Mr. Haruo Inouye, 11-year-old Japanese boy, who travelled alone from Toronto to Vancouver via Canadian National Railways, possesses a fiery independence that rose in protest when a representative of the Traveller's Aid remarked that Haruo looked no more than eight years old.

"You're no gooky," was the young Oriental's cryptic reply. Master Inouye decided to take a walk around Winnipeg before the Continental Limited steamed on west, and when the passenger agent, whose charge he was, left momentarily, he nodded in the direction of the uniformed official and said: "Tell the president not to worry. I'll be back."

Haruo's father is dead and now his guardian, with whom he lived in Toronto, has passed beyond, so the independent little lad was on his way to join an elder brother in Vancouver. He accepted words of sympathy with a shake of his head, a flashing smile and terse, "Guess I'm jinxed, but I'll get along."

When PAIN Comes

WHAT many people call Indigestion very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food sour. The corrective is an alkali, which neutralizes the acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia.

One spoonful of this harmless, tasteless alkali in water neutralizes instantly many times that much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this. Go, get a small bottle to try.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. 50c a bottle—any drug store. (Made in Canada.)

Growth Of Swedish Town

Modern City Was Arctic Wilderness Twenty Years Ago

A little more than twenty years ago the thriving town of Kiruna, Sweden, was nothing more than Arctic wilderness, the abode of wandering Lapps and herds of reindeer. Today it is a bustling community of 11,000 inhabitants which serves as the commercial center of a vast iron industry with a history as romantic as the most adventurous pioneering exploits of North America. Swedish engineering skill has placed in the center of polar wastes a small modern city with as many up-to-date mechanical comforts as the most fastidious American city dweller could wish for. In the industrial world, Kiruna has become known for its almost unlimited iron ore resources. Figures given by officials of the mining syndicate which controls the properties show that more than 9,000,000 tons of iron ore were produced during 1930. A steady annual gain has been recorded since the mines were first worked on a large scale, about 1911.

A jealous person is always in love, but it's usually more self-love than anything else.

Foods Stay Fresh Longer This Way

Covered with Para-Sani Heavy Waxed Paper goods that usually, sale in a day or so sell fresh for quite a long time. Try it. Get Para-Sani in the handy, sanitary, knife-edged carton at grocer, druggist or stationer. For less exacting usage get "Centre Pull" Packs in sheet form.

LEAGUE FALTERS IN EFFORTS TO ESTABLISH PEACE

Geneva, Switzerland.—Shaken by doubt of United States support and confronted by Japan's stoutly-maintained refusal to withdraw her Manchurian troops until her terms have been met, the council of the League of Nations faltered in its efforts to establish peace between China and Japan. Pessimism was so complete that a proposal to adjourn the council's special session for three weeks, without concrete action to arrest the Manchurian conflict, was debated. Observers feared that the crisis, now five weeks old, would continue unchecked.

Fate of the February disarmament conference and the life of the league itself were declared to be hanging in the balance because of the turn of events in Manchuria. Too, fear was expressed that within China itself there would be political turmoil as a result of the Geneva deadlock. Council members maintained silence concerning apprehensions about the attitude of the United States, but it was admitted that the council sized the situation up thus:

After giving the league cordial assurances of Washington's support in its efforts at pacification, and after accepting the invitation to sit with the council under the terms of the Briand-Kellogg pact, the United States Government now has evidenced unwillingness to support the move to insist on complete withdrawal of Japanese troops by a definite date, nor has the United States supported the proposal for a commission of neutral observers on the spot.

Deep regret was expressed over reports from Washington that United States Secretary of State Henry L. Stimson has assured Japanese Ambassador Katsujirō Doihara that the United States has no intention of participating in any program of economic pressure.

Champion Cattle On E.P. Ranch Burned

Ranch Hands Battled Destructive Fire For Twelve Hours.—Damage totaling \$18,000 was done by fire which razed two barns on the Prince of Wales E.P. Ranch near High River, Alberta. The fire claimed the \$1,000 champion cow "Bismillah" and the \$600 champion heifer, "Princeton Lily"; the \$600 yearling heifer, "Princeton Jessie" and seven young bulls.

Prof. W. L. Carlyle, manager of the ranch, believed that the cause of the combustion came from the outcrop. All the ranch hands battled the flames but the high wind blocked their efforts and the fire spread rapidly. For 12 hours the fire was fought before it was prevented from spreading to other buildings of the ranch. Professor Carlyle said the champion cow heifers were being prepared for the Royal Winter Show at Toronto. He said all entries would be withdrawn now because of the conflagration.

Slump Seen As Benefit

Hearst, Ford Says Depression Is A Wholesome Thing In General.—New York, N.Y.—Henry Ford thinks the economic slump "has done less harm to the people of our country than a continuance of our previous false prosperity would have done." In an interview here, Mr. Ford says "The depression is a wholesome thing, in general." The condition "will be broken, when people cease to believe that something can be obtained for nothing and when people get back their self-dependence, that is when they cease to lean on the initiative of a few either to provide work or charity."

Want Gambling Stopped.—Mexico City.—Commercial organizations of Mexico, acting through the medium of the confederated chambers of commerce, will ask President Ortiz Rubio to put an absolute stop to all gambling in Mexico.

China has just placed a tax on the net profits of banks.

W. N. U. 1913

Federal Authority Must Be Secured

Before Provinces Initiate New Undertakings As Relief Measure

Ottawa, Ont.—"All that has taken place is that various provinces and municipalities have been notified to refrain from initiating new undertakings without federal authority," Senator Hon. Gideon Robertson, Minister of Labor, declared here, commenting on western despatches to the effect that the provinces had been requested to cut their relief measures.

"We found that new undertakings were being embarked upon for which federal authority had not been secured," the Minister said. "This had to stop." We notified the provinces that such works as were already commenced could be proceeded with; but that new enterprises must have Dominion authorization. We intend to insist upon that being respected. That is all."

Unemployed Women

No Census Will Be Taken Says Government

Ottawa, Ont.—The Dominion Government will not undertake registration of unemployed women. This is made plain in a letter Senator Gideon Robertson has sent to the National Council of Women. The registration of unemployed men has proved a very considerable task. He is hopeful of obtaining much desired information from the census in this regard.

Senator Robertson's letter says the results of the efforts to register unemployed men have been so obviously misused by duplications and not men employed registering in anticipation of their becoming out of work, that it seems to preclude the possibility of successful registration of unemployed women.

Death Of A. J. McPhail

President Of Saskatchewan Wheat Pool Passes Suddenly In Regina

Regina, Sask.—A. J. McPhail, president of Saskatchewan Wheat Pool since its inception, and president of Canadian Co-Operative Wheat Producers, Limited, that is, the central selling agency, died suddenly October 21 in Regina General Hospital. He was 47 years old.

Mr. McPhail underwent an operation on September 28 for appendicitis, and since that time had been making satisfactory progress. He was to have been released from hospital the day he died.

His attending physician, Dr. Hugh McLean, stated that embolism, or the release of a clot in the blood stream, caused his sudden death.

"The Beggar's Opera"

English Light Opera Company Now On Canadian Tour

The English Light Opera Company which has come from London, England for a Trans-Canada tour has received high praise from the critics of Toronto and other Eastern Canadian cities they have appeared in. Special stress is laid on the vocal ability of the company which is headed by Layland White, one of England's most popular grand opera and concert baritones, who will be seen as McHeath in "The Beggar's Opera," when the company appears at the Dandie Building for music at Regina on November 2, 3, and 4. Miss Kathleen Desjournet, soprano, will be the "Polly Peachum." This charming and gifted singer was a protégée of Dame Melba, and appeared with the Australian diva at a Command Performance at Covent Garden shortly before the death of Melba. Another member of the company is Miss Dorothy George, well-known London contralto, who has sung the principal contralto roles in Gilbert & Sullivan operas. "The Beggar's Opera," by John Gay, is in full keeping with his name, for it is riotously merry. For an evening of jollity and tuneful music, no opera since this first of all English comic operas can compare.

Mr. Henry Jaxon, one of the most distinguished conductors of all England, will conduct the performances. Those who attended the Wembley Exhibition will recall that it was Mr. Jaxon who directed the music for the Pageant of Empire, and was in charge of the music for His Majesty's Government. Mr. Jaxon is a personal friend of Sir Edward German, composer of "Merrie England," the other opera being given by the English Opera Company on its tour, and has assisted that eminent composer in re-orchestrating and arranging a number of his works.

SEES CANCELLATION

The announcement in London of Sir Norman Angell (above), well known British economist, that he believed all war debts will be cancelled, has attracted international attention. Sir Norman stated he doubts that payments on the debts, suspended by the Hoover moratorium last June, will ever be resumed.

Relief For West

\$50,000 Worth Of Food And Clothing Shipped From Eastern Canada

Toronto, Ont.—Since the national emergency relief committee of the United Church of Canada was formed last August, 38 carloads of clothing, fruit and vegetables, mostly from Ontario have been shipped to drought-stricken areas of the Canadian west. Definite promise of 27 more carloads from this province has already been secured, according to officials of the committee.

Figures compiled show that a total of \$50,000 worth of food and clothing has been shipped to the prairies from Eastern Canada and British Columbia under the direction of the relief committee. The largest total is that of Huron County, Ontario, which is now loading its eighth car.

Not Yet Learned Lesson

Many Disasters Have Apparently Failed To Impress Nations

Toronto, Ont.—Equality of sacrifice among the nations was stressed as the salvation of the world, by Sir William Clark, British High Commissioner in Canada, officiating at the annual price giving at St. Andrew's College, Sir William addressed the students. Looking back over a generation, "which in the last 20 years has seen so many disasters, come upon it, culminating in the severest and most widespread depression which the world has known," Sir William expressed a fear that even now the nations of the world had not yet learned their lesson.

Repays U.S. Credit

Bank Of England Returns Large Portion Of Big Loan

New York, N.Y.—The New York Herald-Tribune says the Bank of England has repaid most of the \$125,000,000 80-day credit it obtained from the United States federal reserve system on August 1.

It was revealed, says the newspaper, in a major front page story that the bank had been able to retire almost \$100,000,000 of its credit in this market.

The Herald-Tribune says further in part: News of the retirement of four-fifths of the August credit, which matures on October 31, evoked considerable surprise and gratification here. It was regarded as a foregone conclusion that the federal reserve advance, while nominally due last week, was actually "frozen" for some time to come.

Thus, by repayment of the major portion of its credit for the federal reserve, the Bank of England has lowered substantially its foreign liabilities, thereby removing some of the obstacles which might be considered as standing in the way of an early stabilization of sterling exchange, and simultaneously the liquidity of the federal reserve system has been increased a corresponding amount.

Premiers Will Meet Again In November

To Consolidate Views On Problems Of Western Provinces

Calgary, Alberta.—Taking back to their respective provinces information which will be studied in preparation for another conference in November, premiers and cabinet members of the prairie provinces closed their conference here and left for their homes.

The meeting in November is being called to consolidate views of the prairie provinces and British Columbia to have legislatures of each province take uniform action on problems debated. British Columbia's representatives, absent from the last meeting, will take part in the November session.

Topics on which information was exchanged during the two-day gathering included unemployment relief, curtailment of provincial expenditures and finances generally, debtor-creditor grievances, wheat pool guarantees and gasoline prices. On the question of gasoline prices alone was any definite action taken, and this was a step towards an investigation under the Combines act.

Floods In India

Calcutta, India.—At least 150 persons were drowned and 2,000 made homeless by floods which reached a depth of 30 feet in the vizianagram area of India. About 90 per cent. of the cattle in the area were drowned and considerable damage done to the jute crop.

THEY HOLD GERMANY'S FATE

In the hands of these five men a great share of the fate of Germany now rests. Heinrich Brüning (upper right), Chancellor and Foreign Minister, charged with the formation of a new cabinet, selected Hermann Dietrich (lower left), as Vice-Chancellor and Finance Minister; General Wilhelm Groener (lower right), as Minister of War and Interior, and Dr. Kurt Jochen (upper left), as Minister of Justice. In the group is shown Adolf Hitler (center), National Socialist leader.

SAYS IN RAILWAY EXPANSION MORE CAUTION NEEDED

Winnipeg, Man.—Re-adjustment of the capital structure of the Canadian National Railway "would not alter the economic position of the country one iota," Dr. W. W. Swanson, professor of economics at the University of Saskatchewan, told the Winnipeg young men's board of trade in an address in which he blamed the people of Canada for any extravagance in the building up of the government-owned railroad.

A private corporation, in debt as the C.N.R. is, might well consider some arrangement with its bondholders which might permit the scaling down of its indebtedness, Dr. Swanson said, but he added: "It is not conceivable that the Dominion of Canada will assemble the bondholders in this case and offer a plan of reconstruction of capital which will involve their agreeing to a scaling down of the face value of their investments."

Capital readjustment of the C.N.R. "would be a trick in accounting," declared Dr. Swanson. "It would be wholly useless, except as gesture." The Saskatchewan economist, who accompanied Premier R. E. Bennett to the last Imperial conference in London in this case and offer a plan of reconstruction of capital which will involve their agreeing to a scaling down of the face value of their investments. "It indicates in plain terms," he said, "the necessity for exercise of more caution in the future than has been shown in the past. It indicates the need to weigh projects of national expansion more carefully than we have sometimes done; the wisdom of making haste slowly, even in a country as rich and as capable of development as is Canada."

Dr. Swanson defended the railway's management. "Operating accounts of the system indicate they proceeded consistently along the lines of what they evidently, without protest from the public, conceived to be their mandate—to make the railway complete in equipment and service; to seek for new business wherever it offered; to handle the routine operations of the system efficiently, and to draw on the Dominion treasury for the money necessary for these purposes."

"If, as has often been alleged, there has been extravagance in the addition of facilities, I for one shall accept my share of the blame which, as a whole, must rest on the people of this country. Cities demanding hotels, travellers clamoring for speedier trains, individuals and journals applauding refinement of luxury and service, if these are the Dominion of Canada made up, and they have had provided what they demanded."

Favorable Trade Balance

British and German Trade Shows Signs Of Improvement

Washington.—Business edged forward last month in both Great Britain and Germany.

Germany's favorable trade balance, gained through increased exports and declining imports, broke all records during that month.

The United Kingdom has a larger unfavorable trade balance than in August, but there were increases in both exports and imports.

Reports to the commerce department gave the following figures:

Germany, September, 448,000,000 marks; exports, 885,000,000 marks; including re-exports and deliveries in kind of 23,000,000 marks.

United Kingdom imports, September, 68,300,000 pounds; exports, 29,800,000 pounds, and re-exports at 3,800,000 pounds.

Tidal Wave Sweeps Island

Fifty Lives Are Lost Following Severe Earthquake

London, Eng.—The office of the colonial secretary was informed that 50 lives had been lost in the destruction of 18 native villages on the island of Cristobal in the western Pacific which was swept by the settlements following a earthquake.

The earthquake, which was severe, occurred in the central and eastern areas of the British Solomon Islands, a report from the high commissioner of the western Pacific stated.

Chicken Supper No. 1.

Moore Hall on Tuesday evening was the scene of a merry party of feasters, it being the occasion of the annual chicken supper given under the auspices of this R. C. Parish. Everything pleasing and palatable was on the bill of fare, and these were done ample justice to by the patrons who had the good fortune to be present.

Use Wampole's GRAPE SALTS

Pleasant tasting—Refreshing—And gives prompt relief in cases of Sick, Bilious or Nervous Headache, Biliousness, Jaundice, Constipation, Indigestion, Sour Stomach, Hiccough, Heartburn, Rheumatic or Gouty Conditions.

Wampole's Grape Salts are highly recommended for all cases of Biliousness, Headache, Indigestion, Sour Stomach, Hiccough, Heartburn, Rheumatic or Gouty Conditions. It acts as a Gentle Laxative and Stimulant to the Liver. Get a bottle to-day. Price 75c. For Sale by

J. F. CLARKE,
Stony Plain.

Results at the Rifle Club's Monday Shoot.

The annual shoot of the Stony Plain Rifle club, held on Monday, was, as usual, a great success—upwards of 30 members being present. No doubt many more would have attended, had threatening been chilly. Altho inclined to be chilly, the weather was quite good as far as the light was concerned, and some particularly good shooting was accomplished.

In class 1 M McKinlay and Otto Hoffman nosed out Capt. Moffat and Colville of Edmonton for first money. Out of a possible 35 both Hoffman and McKinlay scored 34; and that's good shooting any time.

Class 2 provided real competition, and after the smoke had cleared away it was found that the following carried away the silverware—A A Denuill, F W Yeats, F Greenough, A Osterman, T Graden, W Schlecker, Tyrrell.

In class 3 the younger members are going to show the older ones where they get off at very soon. Allan Gosset is developing into a first class shot, and Carmichael is right on his heels. These two boys turned in remarkably good cards, and will be heard from in the near future.

Lunch was served "Buffet" style and was kept going all afternoon, much to the satisfaction and enjoyment of all present.

The day was voted a real success, every body going home with a satisfied smile; and why shouldn't they?

Stony Plain and District

Mr and Mrs Dan Gitzel returned on Saturday from a motor trip to Rimby, where they visited Mr and Mrs Jas Moseley, with a side trip to Red Deer, calling on Mr and Mrs Moseley Sr.

Mr A. E. Michael left yesterday on a business trip to Edson.

The big show which comes to Stony Nov 4 features Val Halle the magician and Capt. Tasker.

The sentence imposed by Magistrate Williams on Ferd Horn a short time ago for an infraction of the Liquor Act, is said to have been confirmed by a judge in a District Court in Edmonton on Monday, when the case came up on a re-trial.

"Doc" Mecklenburg, Optician, paid Stony, his regular visit Tuesday. Owing to his business activities, the "Doc" didn't give any window washing demonstration this trip, but promised to operate on The Sun windows the next time here.

Railway Time Table

Going East—Every morning at 6.23. Mon., Wed & Fri. morning at 7.01.

Going West—Sun., Tues., & Fri. nights at 10.31. Every mid night at 24.13.

Schedule of Mails.

From West—Mon., Wed & Friday morning

To the East—Every morning except Sunday.

To West—Sun., Tues. & Friday night.

Spruce Grove News

Mr Koffenburg, the well-known mechanic, is planning a trip to his native Holland, and may start in a short time.

Mr and Mrs Joe D Miller motored to Edmonton Monday.

The Driver Dixon case is on the docket in the Supreme Criminal Court, to be heard Monday next Nov. 2.

It is stated on good authority that another coat of gravel will be laid on Jasper Highway from Winterburn to Seba Corner, with the proviso that the work be completed before freeze up.

The rumor that the Giv-Eva Peace Conference would be holding a session at the Grove in the near future cannot be verified.

In giving a description of the Oldtimers' dance last Friday night, the Edmonton Journal states that among the names on the Reception committee was that of "Daniel Brock, Spruce Grove."

Mr N Barnhart motored to the docket, on Monday, to the potato patch on the Matheson farm, where they "dug their own" at 5c a bu.

There is expected to be a good sized crowd of patrons at the Harvest Home supper to be held in the local United church tonight, Thurs. 29th. Chicken will be a specialty.

The local Froth Blowers' club have entered a protest to the large "white collars" on their favorite beverage.

Regina Grain Fair, 1933.

The World's Grain Exhibition & Conference at Regina will be held July 24 to Aug 5, 1933. At a meeting of the executive and finance committee of the forthcoming show the change of date was decided on. The committee will at once proceed with plans for the carrying out of the Exhibition and Conference in 1933.

2 Meals a Day, Plenty

Water, Helps Stomach. "Since I drink plenty water, eat 2 good meals a day and take 'Adlerika' now and then, I've had no trouble with my stomach."—C. DeForest.

Unlike other medicine, Adlerika acts on BOTH upper and lower bowel, removing poisonous waste which caused gas and other stomach trouble. Just ONE spoonful relieves gas, sour stomach and sick headache. Let Adlerika give your stomach and bowels a REAL cleaning and see how good you feel! J. F. CLARKE drug-gist.

THE HOUSE OF DREAMS-COME-TRUE

—BY—
MARGARET FEEDER

Author Of
"The Splendid Days of the Hermit of Far End,"
Hodder & Stoughton, Ltd., London.

CHAPTER IV.—Continued.

Jean, always sensitive to her surroundings, shivered a little.

"It's rather eerie, isn't it?" she said. "It's just as if someone had suddenly turned the lights out."

"Quite a nice bit of symbolism," he returned enigmatically.

"How should you? You're young. Fate doesn't come along and snuff out the lights for you when you are—what shall we say? Eighteen?"

"You're two years out," replied Jean composedly.

"As much? Then let's hope you'll have no much the longer to wait before Madame Destiny comes round with her snuffers."

He spoke with a kind of bitter humour, the backwash surely, of some storm through which he must have passed. Jean looked across at him with a vague trouble in her face.

"Then, do you think," she spoke uncertainly—"do you believe it is inevitable that she will come—sooner or later?"

"I hope not—to you," he said gently. "But she comes to most of us."

She longed to put another question, but there was a note of finality in his voice—a kind of "thus far shalt thou come and no further"—that warned her to probe no deeper. Whatever it was of bitterness that lay in the Englishman's past, he had no intention of sharing the knowledge with his chance companion of a day. He seemed to have become absorbed once more in his own thoughts, and for a time they tramped along together in silence.

The ascent steepened perceptibly, and Jean, light and active as she was, found it hard work to keep pace with the man's steady, winging stride.

"Thank you for bringing me up here," she said simply. "It has been perfect."

She stretched out her hand, and he took it and held it in his for a moment.

"I'm glad you've liked it," he answered quietly. "It will always be a part of our day together—the day we stole from the conveniences"—he smiled whimsically. "And now, if you can bring yourself back to more prosaic matters, I suggest we have lunch. Scenery, however fine, isn't exactly calculated to sustain life."

"Most materialistic!" She laughed up at him. "I suppose you think a ham sandwich worth all the scenery in the world?"

"I'll admit to a preference for the sandwich at the moment," he acknowledged. "Come, now, confess! Aren't you hungry, too?"

"Starving! This air makes me feel as if I'd never had anything to eat in my life before."

"Well, then, come and inspect my sale manager."

The proposed refuge proved to be a roughly constructed little hut—hardly more than a shed provided with a door and thick-pane window, its only furniture a wooden bench and table.

But that it had served its purpose as a kind of "traveler's rest" was proved by the fragments of appreciation, both in prose and verse, that were to be found inscribed in a species of "Visitors' Book" which lay on the table, carefully preserved from damp in a strong metal box. Jean amused herself by perusing the various contributions to its pages while the Englishman unpacked the contents of his knapsack.

The lunch that followed was a merry little meal, the two conversing with a happy intimacy and freedom from reserve based on the reassuring knowledge that they would, in all probability, never meet again. Afterwards, they bent their energies to concerting a suitable inscription for insertion in the "Visitors' Book," squabbling like a couple of children over the particular form it should take.

So absorbed were they in the discussion that they failed to notice the perceptible cooling of the temperature. The sun no longer warmed the roofing of the hut, and there was a desolate note in the sudden gusts of wind which shook the door at frequent intervals as though trying to attract the attention of those within. Presently a louder rattle than usual, coincident with a chance pause in the conversation, roused them effectually.

The Englishman's keen glance flashed to the little window, through which was visible a dancing, whirling ball of white.

"Great Scott!" he exclaimed in good round English. "It's snowing like the very dickens!"

In two strides he had reached the door, and, throwing it open, peered out. A dragnet of icy air rushed into the hut, accompanied by a flurry of fine snow driven on the wind.

When he turned back, his face had assumed a sudden look of gravity.

"We must cut at once," he said, speaking in French again and apparently unconscious of his momentary lapse into his native tongue. "If we don't, we shan't be able to get back at all. The snow drifts quickly in the valley. Half an hour more of this and we shouldn't be able to get through."

Jean thrust the Visitors' Book back into its box, and began hastily re-packing her companion's knapsack, but he stopped her almost roughly.

"Never mind that. Fasten that fur thing closed round your throat and come on. There's no taking chances in a blizzard like this. Don't you understand?"—almost thoughtfully. "If we waste time we may have to spend the night here."

Impelled by the sudden urgency of his tones, Jean followed him swiftly out of the hut, and the wind, as though baulked by her haste, snatched at the door from her grasp and drove it with a menacing thud behind them.

(To Be Continued.)

Species Is Unknown

Petrified Fish Found In Gravel Pit Near Moose Jaw

Mute testimony of the belief that the prairies were once covered by many fathoms of water is shown in the finding of a petrified shell fish of an unknown species, in a gravel pit, three miles southeast of Moose Jaw.

Carl Erickson, working at the rock pile was smashing a huge rock of 500 or 600 pounds when he came upon the "fish." It was right in the centre of the huge rock which had been dug up from a depth of about eight feet underground.

This relic of a distant age resembles the snail and is about the size of a man's fist.

Persistent Asthma. A most distressing characteristic of this debilitating disease, is the persistence with which recurring attacks come to sap away strength and leave the sufferer in a state of almost continual exhaustion. No wiser precaution can be taken than that of keeping at hand a supply of Dr. J. D. Kellogg's Asthma Remedy, famous as the most potent remedy for eradicating the disease from the tender air passages.

Held Record As Bricklayer Nine million bricks have been made by Mary Foxall of Lye, Worcestershire, England, in the sixteen years she has been at the occupation. She held the county's record, which she achieved by maintaining an average of six hundred and fifty bricks a day.

20 What a relief!

MINARD'S "KING OF PAIN" UNIMENT

Get Acquainted First

Wife: "The couple next door seem to be very devoted, John. He kisses her every time he goes out and when he comes in again, and waves kisses to her from down the street. Why don't you do that?"

Hubby: "Hang it all, give a man time. I don't even know her yet."

Don't Gamble With Health

We all know health demands absolute inner cleanliness. But what we often don't realize is the risk we take when we use harsh, gripping purgatives that create a strained, unnatural condition.

ENO is pleasant, gentle, safe and sure.

A daily dash of ENO'S "Fruit Salt" in a glass of water, morning or night, tones up and sweetens the entire system. Acid stomach, fatigue, biliousness, quickly disappear.

ENO'S "FRUIT SALT"

A Birthday Party

Birthday Cards To Be Sent From Royal Winter Fair

Every boy and girl in Canada whose tenth birthday falls between November 18 and 26, inclusive, will receive a personal birthday card from the Royal Winter Fair, Toronto, if it is requested. This is because the winter fair on those dates also celebrates its tenth "birthday."

This year the fair is designated a "commemorative show" to recall the inspiring influence it was to Canadian agriculture, when founded ten years ago. And it is to help in spreading a cheery outlook respecting agriculture that the birthday party is being held.

Many children die from the assaults of worms, and the first care of mothers should be to see that their infants are free from these pests. A vermifuge that can be depended on is Miller's Worm Powders. They will not only expel worms from the system, but act as a health-giving medicine and a remedy for many of the ailments that beset infants, enfeebling them and endangering their lives.

THE RHYMING OPTIMIST

By Aline Michaels

LIFE'S DELIGHT

Sometimes love is a rose glow in a garden gay with sun. Where the winds all sweet with perfume go And song is never done.

As day by day the roses nod. And brighten the garden-pale, So love in a life is the smile of God, And life grows fair by love's grace.

Sometimes love is a lily-bud As lovely as the moon, A lily-bud in the star-light's flood On the still and black lagoon.

As lilies may lift their petals pale Out of the mud and slime, So love in a life can never fail To make that life sublime.

Love may be rose or lily white, A thing of sun or shade; But always love has been life's delight, Since ever the world was made.

Was Always a Nobelman

Receiving Title Did Not Change Sir Thomas Lipton

Samuel Smiles never had a clearer self-made man than Thomas Lipton. The boy to whom a guinea used to be a fortune became the master of millions and the employer of hosts of men. He was generous with his money, never more so than in the World War, when he turned the Erin into a hospital ship, and Serbia knew him as "Uncle Tom." His motto was "Labor Omnia Vincit." A friend of the early Glasgow days said of him: "He did not need to be knighted to be a nobelman."

Get Acquainted First

Wife: "The couple next door seem to be very devoted, John. He kisses her every time he goes out and when he comes in again, and waves kisses to her from down the street. Why don't you do that?"

Hubby: "Hang it all, give a man time. I don't even know her yet."

Little Helps For This Week

"Blessed is that man that maketh the Lord his trust."—Psalm xl, 4.

Just to trust and yet to ask.

Guidance still, The training or the task.

As He will.

Just to make the loss or gain.

As He sends it;

Just to take the joy or pain.

As He'll reward it.

This is all and yet the way.

Marked by Him who loves these best.

Secret of a happy day.

Secret of His promised rest.

—Frances Ridley Havergal.

If you go to Him to be guided, He will guide you; But He will not comfort your distrust or half-trust of Him by showing you the chart of all His purposes concerning you. He will only show you into a way where, if you go cheerfully and trustfully forward, He will show you on still farther.

No contract will be made with you save that He engages, if you trust Him, to lead you into the best things all the way through."—Horace Bushnell.

Mothers can easily know when their children are troubled with worms, and they lose no time in applying a reliable remedy—Mother Gravel Worm Exterminator.

Russia's Policemen

Moscow, Russia, is one of the few cities of the world to boast of uniformed policemen on regular beats. They wear helmets, and attached to a belt over their olive-drab jackets, is a pistol in a leather holster.

Keep on your Feet

4 MORE ACTIVE DAYS

Too bad! Sick again... doubled up with cramps. The boss was nice... awfully patient.

But it was so embarrassing... everybody in the office knew that she "wasn't well."

Then a girl friend told her what to do. You need Lydia E. Pinkham's Vegetable Compound. It's a wonderful medicine to use during these "cramp" times.

It keeps you up. Drives away those blues. Keeps you on your feet. Won't you try a box of the new tablets?

Lydia E. Pinkham's

VEGETABLE COMPOUND

CHILD need REGULATING?

CASTORIA WILL DO IT!

When your child needs regulating, remember this: the organs of babies and children are delicate. Little bowels must be gently urged—never forced. That's why Castoria is used by so many doctors and mothers. It is specially made for children's ailments; contains no harm, harsh, harmful drugs, no narcotics. You can safely give it to young infants for colic pains. Yet it is an equally effective regulator for older children. The next time your child has a little cold or fever, or a digestive upset, give him the help of Castoria—the children's own remedy. Genuine Castoria always has the name:

CASTORIA

CHILDREN cry FOR IT

Roadwork de Luxe.

The ditching and grading on the Barrie Road, the two-mile stretch from Edmonton Beach to Jasper Highway, has been completed. Those who have driven over it since its completion on Saturday last speak of the work in the very highest terms. The contract had been let to Western Construction Co.; and associated with the company were Messrs Wess Hubbel and Fred Schulte.

The work was done as a measure for providing work for unemployed, and was performed under the eagle eye of a relief officer appointed by the Department.

It is understood that the Federal Government are paying for half the cost; the balance of the cost being divided between the Provincial Government and the Inga Municipality.

The whole stretch of road is now ready for the gravel; and it is expected this will be commenced at once.

Duffield Doings.

On Tuesday, the 27th, the Duffield Women's Institute held its regular monthly meet. Convenor Mrs Heap, the President, in charge. The hostesses were Mrs F J Francey, Mrs W J Taylor, Mrs Schaefer. Mrs R E Wood of Stony Plain gave an address. At the Roll Call, the earliest photo of each member was produced.

Mr Percy Faulks has been getting in shipment of plants and shrubs from an Eastern nursery, with which to decorate his grounds.

The Proposed Union Government for Alberta.

Mr W McC Davidson, a former member of the Alberta Legislature, has delivered a second address on the matter of forming a Union Government for Alberta. In this second address Mr Davidson dealt with the query of Premier Brownlee as to what advantage a Union government would have as compared with the administration at present; to which Mr Davidson replies that loss of party identity under a Union government in Alberta would involve no major concessions of policy and thru the union of forces greater power in solving problems would be given.

"Our democracy will fail if parliament is nothing more than a battleground of government and opposition over minor details of administration," said Mr Davidson. "It is common business sense at times like these to put aside prejudice and favoritism."

All Liquor Stores to Keep Open.

Despite a serious drop in revenue, Chairman Dinning of the G L C Board, intimates that no change in the price of liquors is contemplated at the present time. Some temporary employees have been laid off at various Government vendors stores, but none of the liquor stores will be closed.

The Early Days Had Their Advantages.

A local oldtimer says that altho things were certainly tough in the old days, there are those certain modern improvements like halitosis, pink tooth brush, B. O., wrinkles, and Lordosis curve—that they didn't spend much time in fighting. And they never were tempted to squander their money learning five languages in ten lessons.—High River Times.

Personal Greeting Cards.

The Stony Plain Pharmacy has received its samples of Personal Greeting Cards, and these are now on display on their counters. The lines in the sample books cover cards for every phase of life—Personal, Business or Professional—and will be sure to please you no matter what you desire in the way of personal greeting cards for Christmas. The prices are low & this year.

Hallowe'en Dance
Moose Hall, Stony Plain
Friday, Oct. 30th.

Brightbank News

Threshing is 90 p.c. finished in this locality. As considerable damage had been done by hail, some spots showed poor yields.

Mr Fred Von Frederick, an oldtime resident of Mowasin but now of Edmonton, paid his old friends here a visit last week, in his Studebaker Six.

Mr H Stirling has returned home from Jasper, where he had been on police duty. He is now acting as guide for a party of Eastern duck hunters.

Big Jim is preparing for his annual hunt after the big game.

Slogans.

For the quarrelsome couple — "There's beauty in every jar."

For the barber—"Shave the Surface."

For the garlic eater—"The Flavor Lasts."

—The En-er-co Oil News.

The Last Recourse.

"De collection dia morin'," said the colored preacher, "an foh de purpose ob making up de deficit ob 200 dollars, de arrears ob yoh pastor's salary. De choir will now sing—and will continue to sing till de full amount am realised."

If Wheat Goes Up.

A young curly-headed youngster of six summers asked us if it was really true that Santa Claus was coming to town riding on a donkey. As we do not believe in filling youthful minds with fairy stories, we told him he would unless the wheat came up a few cents.—Thorby News.

Card of Thanks.

Mrs Juliana Ducholke and Family wish to thank all their friends and acquaintances for the many kindnesses shown and expressions of sympathy given, on the occasion of their recent bereavement.

Calendar

OCTOBER—
29—Harvest Home Supper, United Church, Spruce Grove.
30—Glee Club's Hallowe'en dance at Moose Hall.
30—Dance at Blueberry School.
NOVEMBER—
5—Convention of Stony Plain U. F. A. Constituency Ass'n.
5—Chicken Supper, at Ukrainian Hall, Carvel.
5—Town Council meets.
11—Remembrance Day.
13—Hallowe'en Dance at Holborn Hall.

Contributed Huge Sum To Assist Employment

C.P.R. Spent more than \$11,000,000 on new Branch Lines and station buildings and provided 351,000 days work for men otherwise unemployed. Co-operated by doing work years ahead.

Since the commencement of the existing economic situation the Canadian Pacific Railway has spent a matter of eleven to twelve million dollars in providing work for unemployed Canadians. When it was apparent in the late summer of 1930, that certain areas of southern Saskatchewan were to suffer from almost complete crop failure, the Company took upon itself to assist the people in that territory by beginning the construction of a branch line between Vancouver and May-roine. This line would not, in the ordinary course of events, have been built for some time, and certainly not at a time when there was no crop available in that particular territory.

Mr. E. W. Beatty, Chairman and President Canadian Pacific Ry. Co., said that the Company desired to give employment to the farmers and their teams in the drought area. The total cost of the line is estimated to be approximately \$11,000,000, and this work is still proceeding.

The Dominion Government subsequently undertook considerable work for the unemployment relief, and the Canadian Pacific was called upon to cooperate. This the Company did to the limit of its ability by anticipating work which would, normally, not have been started for a number of years. These works included a number of new branch lines, the building of a new station at Regina, some grade

revision in British Columbia, and also the application on various subdivisions of new rail and new rock and gravel ballast. The total cost of these works were estimated at \$12,244,000 and, according to agreement with the Government, are to be completed at the end of the current year. It is true that the Dominion agreed to pay interest for a limited period on this capital cost, but after receipt of this interest, the Canadian Pacific will still have expended over \$10,500,000 from its own Treasury in order to improve the situation in the country generally. This expenditure has been made at a time when the Company's revenues are suffering severely as a result of business depression. This programme of work, undertaken in order to cooperate with the Government, had given 351,000 days work to individuals otherwise unemployed up to August 31st last, and at September 14th it was estimated that approximately 100,000 more working days would be completed.

Although the Company has succeeded in making substantial reductions in operating costs, it has hesitated to pursue its policy of economy to the limit out of regard for the serious obligation which rests upon all corporations to give as much employment as possible. While protecting the interest of shareholders as far as consistent with its duty to the country, the Canadian Pacific has been conservative in its application of measures which would increase the number of unemployed in Canada. Only recently, after experiencing very severe decreases in earnings, have they pared down their forces to the bare essential necessary for operation.
